

Product Bulletin

Product: 00000114583XL / 10308220XL 2-Way Blow Valve Upgrade

Description: This is a completely new valve with the latest upgrades. This includes energized seals for longer life, a revised rod cartridge that offers greater guidance, a fast response MAC® pilot valve with consistent repeatability and our exclusive hard anodize coating that provides increased wear characteristics for the piston seal. You receive all of these upgrades at a price that is more competitive than any other offering on the market today.

Offering: We also offer these components separately. Please contact us for pricing and availability.
