**Product:** 10268099 Transfer Head Upgrade Series 2

**Description:** Our transfer head offers several upgrades to provide longevity and improved performance. First, we installed ball bearings in place of the bronze bushings. Then we repositioned the roller bearing that actuates the grippers to provide a wider opening for greater accuracy when transferring preforms. We then heat treated the entire head for longer life. Solutions that work...XL Engineering at work!

**Offering:** XL Engineering stocks 10268099 Transfer Head. Please contact us for pricing.
