Product: 10308207 3-Way Hi-Flo Valve Upgrade

Description: XL Engineering has designed a series of *DirectFit*[™] 3-Way Valves that are new from the ground up. These valves are the result of a completely new forward-thinking design that encompasses the utilization of proprietary seals that provide a 100 percent seal between the low/high pressures & exhaust. The Lo-Flo, Med-Flo & Hi-Flo valves share many common parts such as the sleeve, rod cartridge, bushing and seal kits which greatly reduce inventory and maintenance time. All these improvements and still 15 to 20 percent less than current design products on the market today. This is *Innovation Through Knowledge*[™]!

Offering: Also see 10308217 Med-Flow & 10308219 Lo-Flo
