

Product Bulletin

Product: 69600106 / 10328002 Toothed Sector Gear 6/6, 6/10

Description: With our “anti-backlash” feature incorporated into our pinion gears, this offers a more precise operation of opening and closing the mold halves. With the backlash eliminated, this also increases the durability of the gears, bearings, cam followers, and cams. When the gear is installed and aligned in the machine, the set screw is removed to allow the gear to function properly.

Offering: Please contact us for pricing and availability.
