

## Product Bulletin

### Product: Linear Ceramic Bushings

**Description:** XL Engineering offers Linear Ceramic Bushings for the Stretching / Blowing Housing & Mold Base. These are direct replacements for the Linear Ball Bushings, but do not score the shafts like the ball bushings do from the ball bearings. They can be purchased with or without a seal, however we recommend using the seal to keep contaminants out. A light coating of ISO68 oil is recommended. Also see 10308180 Oil Cup for replacing existing Grease Fittings.
